OBJECTIVE

A passionate and driven individual with expertise in programming, full stack web development, basics in ethical hacking, and software development. I aim to leverage my technical skills, innovative mindset, and problem-solving abilities to contribute meaningfully to a forward-thinking organization while fostering growth and collaboration in a dynamic work environment.

EDUCATION

PROGRAMME

YEAR

Bishop Herman College	General Science	2021 – 2023
University of Cape Coast	BSc. Computer Science	2024 – to date

POSITION HELD AND ACCOMPLISHMENTS

Secondary School – STEM President 2022–2023

Participated in various incentive programs and contests designed to support achievement of production goals in the country.

Successfully built and developed IP Blueprint, an online affiliate marketing company, as a full stack developer.

PROJECTS

IP Blueprint (www.ip-blueprint.com)

Freelancing and Affiliate Marketing Platform

Solely developed a fully functional freelancing and affiliate marketing platform, integrating key features such as user authentication, secure payment systems (Mobile Money and Paystack), and a mentorship system. Designed and implemented the database, frontend, backend, and overall functionality to create a seamless user experience.

Tic-Tac-Toe Game (<https://github.com/Emmanuel-Elikem/tik-tak-toe>)

Interactive Web Game

Designed and developed a simple, responsive Tic-Tac-Toe game using HTML, CSS, and JavaScript. Implemented game logic, user interaction, and a visually appealing interface to enhance the user experience.
